

HEALTHeNL Application Changes

What's Changing and What's Staying the Same — Physician Reference

Electronic Death Notification (EDN)

A launch-in-context integration — HEALTHeNL provides single sign-on (SSO) and patient context to launch the EDN website (Axiel software) operated by Vital Statistics. No clinical data is sent from HEALTHeNL to EDN. EDN will remain available in both HEALTHeNL and CorCare. EDN will NOT be available through EpicCare Link.

Category	✓ Staying the Same	🔄 What's Changing
HEALTHeNL Availability	EDN will remain accessible from HEALTHeNL — no change to this workflow for community and EMR physicians SSO launch with and without patient context remains in place from HEALTHeNL Permissions maintained in HEALTHeNL to control user access to EDN	No changes to the HEALTHeNL-side EDN integration
CorCare Addition	EDN website and death documentation workflow remain the same	A new SSO button with patient context will be built in CorCare — physicians will be able to launch EDN from CorCare as well as HEALTHeNL
Community Physicians	EDN continues to be accessible via HEALTHeNL for community and EMR physicians — no change to your workflow EDN will NOT be available through EpicCare Link — confirmed out of scope	No change for community physicians — your HEALTHeNL access is unchanged
Downstream / Vendor	Axiel software and Vital Statistics workflow unchanged	EDN vendor (Axiel) and Vital Statistics will need to be engaged regarding dual-platform launch
