---

CorCare

## CorCare Provider Training Tracks

Last Update: 1/26

2025-26

# Anesthesiologist

Includes: Anesthesiologist, Anesthesia Assistant, and Pediatric Anesthesiology

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Anesthesiologists and Anesthesia Assistants should register for the following courses:

- Anesthesia Provider
- Anesthesia User Settings
- Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Anesthesiologists, readiness content and training for a provider includes:

- 3 hours of *asynchronous* content
- 9 hours of *synchronous* classroom training and personalization sessions

# Breast Imaging Radiologist

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Breast Imaging Radiologists should register for the following courses:

- CorCare RAD-SP Breast Imaging Radiologist

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Breast Imaging Radiologists, readiness content and training for a provider includes:

- 1.5 hours of *asynchronous* content
- 3 hours of *synchronous* classroom training and personalization sessions

# Cardiologist

Includes: Pediatric Cardiology

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Cardiologists should register for the following courses:

- IP/OP Cardiologist with structured reporting
- CorCare Medical Specialties User Settings Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Cardiologists, readiness content and training for a provider includes:

- 1.5 hours of *asynchronous* content
- 10 hours of *synchronous* classroom training and personalization sessions

# Dermatology

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Dermatology should register for the following courses:

- CorCare IP Consulting Specialties (Inpatient Only)
- CorCare OP Dermatology
- CorCare OP Dermatology Specialties User Settings Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Dermatology, readiness content and training for a provider includes:

- 0.75 hours of *asynchronous* content
- 10.5 hours of *synchronous* classroom training and personalization sessions

# Emergency Room Provider

Includes: ED Physicians, ED Medical Directors, ED Nurse Practitioners, Pediatric ED

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Emergency Room Providers should register for the following courses:

- CorCare Emergency Department Provider
- CorCare Emergency Medicine Personalizati Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Additional Notes:

ED Medical Directors have an additional after class exercise book (1 hour)

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Emergency Room Providers , readiness content and training for a provider includes:

- 2.5 hours of *asynchronous* content
- 6.5 hours of *synchronous* classroom training and personalization sessions

# Gastroenterologist/Respirologist

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

These physicians should register for the following courses:

- CorCare IP Medical Specialties
- CorCare OP Medical Specialties
- CorCare Medical Endoscopist with User Setting Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For these Providers , readiness content and training for a provider includes:

- 2.5 hours of *asynchronous* content
- 13.5 hours of *synchronous* classroom training and personalization sessions

# Gynecological Oncologist

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

These physicians should register for the following courses:

- CorCare IP Surgical Specialties
- CorCare OP Surgical Specialties
- Medical and Gynecological Oncology Provider
- CorCare Surgical Specialties User Settings Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Gynecological Oncologists, readiness content and training for a provider includes:

- ~4 hours of *asynchronous* content
- ~20 hours of *synchronous* classroom training and personalization sessions

# Hematologist Oncologist

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

These physicians should register for the following courses:

- Hematology Oncology Provider
- CorCare Medical Specialties User Settings Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For these providers, readiness content and training for a provider includes:

- ~1 hours of *asynchronous* content
- ~10 hours of *synchronous* classroom training and personalization sessions

# Integrated Provider

Combined Emergency/Inpatient/Outpatient Training

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Integrated Provider should register for the following courses:

- Physician Integrated 100
- Physician Integrated 101
- CorCare Medical Specialties User Settings Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Additional Notes:

This training is designed for providers who deliver care across Emergency, Inpatient, and Outpatient settings.

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Integrated Provider (ED, IP, OP), readiness content and training for a provider includes:

- ~2.5 hours of *asynchronous* content
- ~14.5 hours of *synchronous* classroom training and personalization sessions

# Intensivist (ICU)

Includes: PICU

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Intensivists should register for the following courses:

- CorCare IP Intensivist
- CorCare Medical Specialties User Settings Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Intensivists, readiness content and training for a provider includes:

- 1 hour of *asynchronous* content
- 6 hours of *synchronous* classroom training and personalization sessions

# Interventional Radiologist

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Interventional Radiologists should register for the following courses:

- CorCare RAD-SP Interventional Radiologist
- Interventional Radiologist User Settings Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Interventional Radiologists, readiness content and training for a provider includes:

- 1.75 hour of *asynchronous* content
- 6 hours of *synchronous* classroom training and personalization sessions

# Medical Oncologist

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

These physicians should register for the following courses:

- Medical and Gynecological Oncology Provider
- CorCare Medical Specialties User Settings Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Medical Oncologists, readiness content and training for a provider includes:

- ~1 hour of *asynchronous* content
- ~10 hours of *synchronous* classroom training and personalization sessions

# Medical Specialties IP

Includes: Endocrinologist, Long Term Care, General, Geriatrician, Hospitalist, Infectious Disease, Internal Medicine, Palliative Care and Rheumatologist

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Medical Specialties IP should register for the following courses:

- CorCare IP Medical Specialties
- CorCare Medical Specialties User Settings Lab
- CorCare Medical Endoscopist with USL (If you complete endoscopy procedures)

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Additional Notes:

Specialties would attend IP training if they have admitting privileges/MRP for an admitted patient. If they do not admit, but still need to know the inpatient workspace for consulting purposes, they would attend the Consulting Specialties class.

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Medical Specialties IP, readiness content and training for a provider includes:

- 1 hour of *asynchronous* content
- 6.5 hours of *synchronous* classroom training and personalization sessions

# Medical Specialties OP

Includes: Endocrinologist, Gastroenterologist, General, Geriatrician, Hospitalist, Infectious Disease, Internal Medicine, Palliative Care, Respiriologist and Rheumatologist

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## What should I be Registered for?

Medical Specialties OP should register for the following courses:

- CorCare OP Medical Specialties
- Medical Specialties User Settings Lab
- CorCare Medical Endoscopist with USL (If you complete endoscopy procedures)

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Medical Specialties OP, readiness content and training for a provider includes:

- 0.5 hours of *asynchronous* content
- 6.5 hours of *synchronous* classroom training and personalization sessions

# Medical Scientific Personnel

(Microbiologists, Biochemists, Hematopathologists)

## Timeline

Managers are responsible for registering personnel for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**. Med Sci can self-register and gain manager approval.

## What should I be Registered for?

Medical Scientific should register for the following courses:

- CorCare Beaker Medical Scientific **101**

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to **individuals** to ensure readiness for go-live.

For Medical Scientific, readiness content and training for a provider includes:

- 1.25 hours of *asynchronous* content
- **3** hours of *synchronous* classroom training and **2 hours of** personalization sessions

# Neonatologist

Includes: NICU

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Neonatologists should register for the following courses:

- CorCare IP Neonatologist
- CorCare Medical Specialties User Settings Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Neonatologists , readiness content and training for a provider includes:

- 1 hour of *asynchronous* content
- 7 hours of *synchronous* classroom training and personalization sessions

# Nephrologist

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Nephrologists should register for the following courses:

- CorCare IP Medical Specialties
- CorCare OP Nephrology
- CorCare Medical Specialties User Settings
- Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Nephrologists, readiness content and training for a provider includes:

- 1 hour of *asynchronous* content
- 11.5 hours of *synchronous* classroom training and personalization sessions

# Neurologist

Includes: Pediatric Neurology

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Neurologists should register for the following courses:

- CorCare IP Neurologist
- CorCare OP Medical Specialties
- CorCare Medical Specialties User Settings Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Neurologists, readiness content and training for a provider includes:

- 0.5-1 hour of *asynchronous* content
- 10.5 hours of *synchronous* classroom training and personalization sessions (IP has 2.5 hours of recommended after class e-learnings)

# Non-Invasive Radiologist

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Non-Invasive Radiologists should register for the following courses:

- CorCare RAD-SP Non-Invasive Radiologist

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Non-Invasive Radiologists, readiness content and training for a provider includes:

- 1.5 hours of *asynchronous* content
- 3 hours of *synchronous* classroom training and personalization sessions

# Obstetrician Gynecologist

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Obstetrician Gynecologists should register for the following courses:

- CorCare Obstetrician-Gynecologist
- CorCare OP OBGYN
- CorCare Obstetrician-Gynecologist User Settings Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Obstetrician Gynecologists, readiness content and training for a provider includes:

- 0.5 hours of *asynchronous* content
- 10.5 hours of *synchronous* classroom training and personalization sessions

# Ophthalmology

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Ophthalmology should register for the following courses:

- CorCare OP Ophthalmologist
- CorCare IP Surgical Specialties
- CorCare Surgical Specialties User Settings Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Ophthalmology, readiness content and training for a provider includes:

- 0.5-1 hours of *asynchronous* content
- 11 hours of *synchronous* classroom training and personalization sessions (IP has 2.4 hours of recommended after class e-learnings)

# Orthopedic Surgeon

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Orthopedic Surgeons should register for the following courses:

- CorCare IP Orthopedic Surgeon
- CorCare OP Orthopedic Surgery
- Corcare OP Orthopedic Personalization Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Orthopedic Surgeon, readiness content and training for a provider includes:

- 0.5-1 hours of *asynchronous* content
- 11 hours of *synchronous* classroom training and personalization sessions

# Pathologist

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Pathologists should register for the following courses:

- CorCare Pathologist

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Pathologist, readiness content and training for a provider includes:

- 0.75 hours of *asynchronous* content
- **5** hours of *synchronous* classroom training and 2 hours of personalization sessions

# Pediatric Hematologist-Oncologist

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

These providers should register for the following courses:

- CorCare Pediatric Hematology and Medical Oncology
- CorCare Medical Specialties User Settings Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For physicians, readiness content and training for a provider includes:

- ~1 hours of *asynchronous* content
- ~10 hours of *synchronous* classroom training and personalization sessions

# Pediatrician

Includes: Pediatric Respiratory, Pediatric GI, Pediatric Endo, Adolescent Medicine, and Development Pediatrics

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Pediatricians should register for the following courses:

- CorCare IP Pediatrician
- CorCare OP Pediatrician
- CorCare Medical Specialties User Settings Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Pediatricians, readiness content and training for a provider includes:

- 0.5-1 hours of *asynchronous* content
- 11.5 hours of *synchronous* classroom training and personalization sessions

# Psychiatrists and Nurse Practitioners (IP/Residential)

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Psychiatrist and Nurse Practitioners should register for the following courses:

- Mental Health and Addictions for Inpatient Services for Nurse Practitioners and Psychiatrist Documentation
- CorCare Mental Health and Addictions Training for Inpatient Day and Residential Services for Nurse Practitioners and Psychiatrists
- CorCare Medical Specialties User Settings Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Psychiatrist and Nurse Practitioners , readiness content and training for a provider includes:

- 3 hours of *asynchronous* content
- 8 hours of *synchronous* classroom training and personalization sessions

# Psychiatrist (Outpatient)

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Psychiatrists should register for the following courses:

- Mental Health and Addictions for Outpatient Psychiatrist Documentation
- CorCare Medical Specialties User Settings Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Psychiatrists, readiness content and training for a provider includes:

- 3.6 hours of *asynchronous* content
- 4 hours of *synchronous* classroom training and personalization sessions

# Radiation Oncologist

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Physicians should register for the following courses:

- Radiation Oncology Provider
- CorCare Medical Specialties User Settings
- Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Radiation Oncologists, readiness content and training for a provider includes:

- ~ 1 hour of *asynchronous* content
- ~ 10 hours of *synchronous* classroom training and personalization sessions

# Resident – Medical IP

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Resident Medical IP should register for the following courses:

- CorCare IP Medical Specialties
- CorCare Medical Specialties User Settings Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Resident-Medical IP, readiness content and training for a provider includes:

- 1 hour of *asynchronous* content
- 6.5 hours of *synchronous* classroom training and personalization sessions

(2.5 hours of recommended after class e-learnings)

# Resident – Surgical Specialties

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Resident-Surgical Specialties should register for the following courses:

- CorCare IP  
Surgical Specialties
- CorCare Surgical  
Specialties User Settings  
Lab

**Users with incomplete  
training will not be granted  
access to CorCare at go-live.**  
**CorCare courses missing or  
incorrect? Complete the  
[Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Resident-Surgical Specialties, readiness content and training for a provider includes:

- 1 hour of *asynchronous* content
- 7.5 hours of *synchronous* classroom training and personalization sessions

(IP: 2.5 hours of recommended after class e-learnings)

# Surgical Specialties – Inpatient/Outpatient

Includes: Bariatric, Cardiac, General, Gynecology, Neuro, Otolaryngology, Plastic, Thoracic, Urology, Vascular, and Pediatric Surgery

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Surgical Specialties should register for the following courses:

- CorCare IP Surgical Specialties
- CorCare OP Surgical Specialties
- CorCare Surgical Specialties User Settings Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Resident-Surgical Specialties, readiness content and training for a provider includes:

- 0.5-1 hour of *asynchronous* content
- 12 hours of *synchronous* classroom training and personalization sessions

(IP: 2.5 hours of recommended after class e-learnings)

# Surgical Specialties – Inpatient Only

Includes: Bariatric, Cardiac, General, Gynecology, Neuro, Otolaryngology, Plastic, Thoracic, Urology, Vascular

## Timeline

All physicians are responsible for registering themselves for training in [LEARN](#), NL Health Service's Learning Management System, **as soon as possible**.

## What should I be Registered for?

Surgical Specialties should register for the following courses:

- CorCare IP Surgical Specialties
- CorCare Surgical Specialties User Settings Lab

**Users with incomplete training will not be granted access to CorCare at go-live.**  
**CorCare courses missing or incorrect? Complete the [Update Request Form](#)**

## Time Commitment

Other eLearnings, prerequisite and otherwise, will be available to physicians to ensure readiness for go-live.

For Resident-Surgical Specialties, readiness content and training for a provider includes:

- 0.5-1 hour of *asynchronous* content
- 7.5 hours of *synchronous* classroom training and personalization sessions
- 2.5 hours of recommended after class e-learnings
