

CorCare Link - Flexible and Optional Orientation

Here's what you need to know about CorCare—the new, modern digital health system transforming care across Newfoundland and Labrador.

CorCare is a province-wide health information system replacing outdated digital tools. It enables fast, secure collection and sharing of electronic medical records—helping you spend less time searching and more time caring.

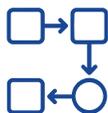

One unified system

That will be used for storing, managing, and transmitting clinical information.

Built with expertise

700+ subject matter experts, including 180+ physicians, contributed to its design.

Better workflow

Updated digital tools and enriched MyHealthNL features support stronger collaboration between clinicians, staff, and patients.

Who needs orientation for CorCare Link?

Anyone using CorCare Link to submit referrals, lab requisitions, DI requisitions, or access patient information:

- Physicians, nurse practitioners and other ordering providers.
- Medical office assistants (MOAs), nurses, and administrative staff who support ordering, referral submission or In Basket management.

What's available?

Self-directed and accessible options:

- Link Orientation Sessions** — reach out to the Link team (see contact information below) or the Newfoundland and Labrador Medical Association for meeting links.
- Playground environment** — a practice version of CorCare Link where you can explore workflows with test patients.

Confirm what orientation you need

- CorCare Link users should review the available self-directed materials and attend town halls and office hours to prepare. If you're unsure about your readiness, contact the CorCare team.
- Orientation/training is designed for flexibility and convenience. Engagement sessions are optional, but highly recommended, and total 2.5 hours. Access the “playground” to practice at your own pace.
