

In Basket, CorCare Hyperspace

Here's what you need to know about CorCare—the new, modern digital health system transforming care across Newfoundland and Labrador.

CorCare is a province-wide health information system replacing outdated digital tools. It enables fast, secure collection and sharing of electronic medical records, helping you spend less time searching and more time caring.

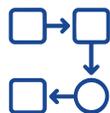

One unified system

That will be used for storing, managing, and transmitting clinical information.

Built with expertise

700+ subject matter experts, including 180+ physicians, contributed to its design.

Better workflow

Updated digital tools and enriched MyHealthNL features support stronger collaboration between clinicians, staff, and patients.

What is In Basket?

- In Basket is a secure messaging, notification, and workflow management system built into CorCare Hyperspace.
- In Basket is accessible from the Hyperspace toolbar and is one of the first activities you see when you log in. You can also access it from Haiku (mobile).

Key Types of Messages in your In Basket?

- **Results** — lab, imaging, and other test results for your review.
- **Referral Triage & Referral notifications** — triage referrals and receive status updates and consultant reports.
- **Co-sign requests** — orders and notes that need your signature (e.g., from residents or learners).
- **Staff messages** — secure messages from care team members, nursing, and other providers.
- **System notifications** — prescription renewals, scheduling messages, and clinical alerts.
- **CC'd charts** — documents shared with you for awareness.

Sharing content

- In Basket allows you to forward In Basket messages to other CorCare providers, including those using CorCare Link.
- If you need to send information to external third parties, such as insurance companies, use your usual external processes.

Support is available

- Various support materials are available on the CorCare [website](#).
- Questions: CorCare@nlhealthservices.ca
