

Specimen Transport Packaging Supplies and Vendors

Marsys inc. is the supplier for purchasing TDG compliant transport bags that have been validated by Eastern Health to maintain appropriate specimen temperatures.

For any model of packaging *other* than the two Marsys products noted below, it is the responsibility of the specimen collector to validate the container and packing scheme to maintain the appropriate temperatures throughout all seasonal temperatures. Evidence of successful validation must be submitted along with the application for an external collector permit.

Directions for ordering transport bags and supplies from Marsys

For product search/catalogue numbers and customer service – <https://marsysinc.com>
